

# 2015 GM COLORADO/CANYON 4WD LEVELING SYSTEM

NEW PRODUCT

## OVERVIEW

Designed for the 2015 Colorado/Canyon, this system provides 1.5" of front suspension lift to help level the factory front to rear stance. Constructed of billet aircraft aluminum and CNC machined for a proper fit to the factory Coilover front shocks. This 1.5" system has been engineered to eliminate ball joint or tie rod end bind at full suspension droop for years of trouble free operation.

All Fabtech Leveling Systems qualify for a free 5 year 60,000 mile Powertrain Warranty and exclusive Trade Up Program. Buy a Fabtech Leveling System now and trade up the purchase amount later when buying a new Fabtech Suspension System.
