

DIRT LOGIC 2.0 SHOCK UPDATE

PRODUCT UPDATE

OVERVIEW

To further increase the performance and longevity of the Dirt Logic 2.0 shock absorbers Fabtech will be offering these shocks with the following features.

The 2.0 reservoir shocks will come with a black anodized billet aluminum reservoir body with a laser etched Dirt Logic logo. The aluminum reservoir design helps to keep the shock cooler for better performance. The shocks will also come with black NitroSteel® piston rods that are extremely durable and resist chipping from flying debris. The NitroSteel® is highly corrosion resistant compared to chrome piston rods providing increased shock life.

Component Box Updates - No part number change

The below existing part numbers with Dirt Logic 2.0 now uses new aluminum reservoirs and NitroSteel® shafts.

FTS210501 GM 99-06 6" K1500 Dirt Logic 2.0 Pair for Dual Shocks
 FTS21114 GM 2011-15 4" K2500HD Dual Shock Kit
 FTS21102 GM 2011-15 6" K2500HD Dual Shock Kit
 FTS240911 Jeep 2007-15 Steering Stabilizer

Superseded Part Numbers and Kit Numbers

The below part numbers and kit numbers have been superseded as shown with Dirt Logic 2.0 now using aluminum reservoirs and NitroSteel® shafts.

FTS800511 superseded to FTS80112
 FTS800901 supersedes to FTS80114
 FTS800971 superseded to FTS80115

K1043DB superseded to K1101DL
 K1066DB superseded to K1102DL
 K5002DB superseded to K5003DL
