

## ***FTS81014 2.25" Dirt Logic Shock Installation Instructions***

### **Items Included with this product.**

Qty.	Part #	Description
1	FTS81014	Shock
1	FT81014I	Instruction Sheet
1	FT86009	Bushing Hardware Kit 9
1	FT89900	Sticker

### ***Dirt Logic 2.25 Non Reservoir Shock Installation Instructions:***

1. The factory bump stop mount requires some minor trimming prior to installation. Mark and cut approximately 1 ½" inward on the front corner of the bump stop mount. Using a sawzall, cut the bump stop. See photos below.

**Cut Factory Bump Stop Mount approximately 1 ½"**

**After cutting is complete**

2. Using a die grinder with a sanding wheel, sand the previously cut bump stop mount.

**Sand cut area to a smooth surface.**

3. Using the supplied bushing kit, install a cup washer and a bushing onto the shock. Place the shock up into the stock mount on the frame and install the top bushing, cup washer, flat washer, and nut. Leave loose at this time. Using the factory hardware, install the clevis end of the shock into the factory mount with the gusset side of the clevis facing outward. Check for adequate clearance of the shock body to previously cut bump stop mount (the shock must have a minimum of a  $\frac{1}{4}$  of clearance from the mount). If the clearance is correct, tighten the upper shock nut until the bushings start to bulge. Torque the lower shock bolt to 75 ft-lb.

Thank you for purchasing your New Dirt Logic 2.25 Non Reservoir Shock, we hope that you enjoy using it as much as we did building it. Each Dirt Logic shock is built to exacting standards and is properly tuned for your vehicle in order to optimize your ride. Remember that each Dirt Logic shock is designed and built to both beautify and upgrade your vehicle so special care should be taken when installing and cleaning your new Dirt Logic shock. Before installing this shock make sure to follow the instructions supplied with the Fabtech Performance Suspension system you purchased. Take every effort to ensure proper lubrication and hardware is used when installing as per the supplied Fabtech Instructions.

This Dirt Logic Shock is shipped pressurized with Nitrogen. Do not use any other gas for pressurization. Pay careful attention not to discharge this shock without proper tools and training. Do not use any heavy degreaser or other acidic cleaner on any part of this shock. If this shock is equipped with a coil, be aware that the coil has some amount of preload from the factory and should not be removed without proper tools and training. If this shock is equipped with a reservoir hose, do not loosen or remove hose without following proper direction and training and using proper tools.

**FT81014I**

**RETORQUE ALL NUTS, BOLTS AND LUGS AFTER 50 MILES AND PERIODICALLY THEREAFTER.**

*Product Warranty and Warnings-*

Fabtech provides a Limited Lifetime Warranty to the original retail purchaser who owns the vehicle, on which the product was originally installed, for defects in workmanship and materials.

The Limited Lifetime Warranty excludes the following Fabtech items; bushings, bump stops, ball joints, tie rod ends, limiting straps, cross shafts, heim joints. These parts are subject to wear and are not considered defective when worn. They are warranted for 60 days from the date of purchase for defects in workmanship.

Take apart shocks are considered a serviceable shock with a one-year warranty on leakage only. Service seal kits are available separately for future maintenance. All other shocks are covered under our Limited Lifetime Warranty.

Fabtech does not warrant any product for finish, alterations, modifications and/or installation contrary to Fabtech's instructions. Alterations to the finish of the parts including but not limited to painting, powdercoating, plating and/or welding will void all warranties. Some finish damage may occur to parts during shipping, which is considered normal and is not covered under warranty.

Fabtech products are not designed nor intended to be installed on vehicles used in race applications or for racing purposes or for similar activities. (A "RACE" is defined as any contest between two or more vehicles, or any contest of one or more vehicle against the clock, whether or not such contest is for a prize). This warranty does not include coverage for police or taxi vehicles, race vehicles, or vehicles used for government or commercial purposes. Also excluded from this warranty are sales outside of the United States of America.

Installation of most suspension products will raise the center of gravity of the vehicle and will cause the vehicle to handle differently than stock. It may increase the vehicle's susceptibility to a rollover, on road and off road, at all speeds. Extreme care should be taken to operate the vehicle safely at all times to prevent rollover or loss of control resulting in serious injury or death. Fabtech front end Desert Guards may impair the deployment or operation of vehicles equipped with supplemental restraining systems/air bag systems and should not be installed if the vehicle is equipped as so.

Fabtech makes every effort to ensure suspension product compatibility with all vehicles listed in the catalog, but due to unknown auto manufacturers production changes and/or inconstancies by the auto manufacturer, Fabtech cannot be responsible for 100% compatibility, including the fitment of tire and wheel sizes listed. The Tire and Wheel sizes listed in Fabtech's catalog are only a guideline for street driving with noted fender trimming. Fabtech is not responsible for damages to the vehicle's body or tires.

Fabtech's obligation under this warranty is limited to the repair or replacement, at Fabtech option, of the defective product only. All costs of removal, installation or re-installation, freight charges, incidental or consequential damages are expressly excluded from this warranty. Fabtech is not responsible for damages and/or warranty of other vehicle parts related or non-related to the installed Fabtech product. This warranty is expressly in lieu of all other warranties expressed or implied. This warranty shall not apply to any product that has been subject to accident, negligence, alteration, abuse or misuse as determined by Fabtech.

Fabtech suspension components must be installed as a complete system including shocks as shown in our current catalog. All warranties will become void if Fabtech parts are combined and/or substituted with other aftermarket suspension products. Combination and/or substitution of other aftermarket suspension parts may cause premature wear and/or product failure resulting in an accident causing injury or death. Fabtech does not warrant products not manufactured by Fabtech.

Installation of Fabtech product may void the vehicles factory warranty; it is the consumer's responsibility to check with their local vehicle's dealer for warranty disposition before the installation of the product.

It is the responsibility of the distributor and/or the retailer to review all warranties and warnings of Fabtech products with the consumer prior to purchase.

Fabtech reserves the right to supersede, discontinue, change the design, finish, part number and, or application of parts when deemed necessary without written notice. Fabtech is not responsible for misprints or typographical errors within the catalog or price sheet.
