**DIRT  
LOGIC**  
by FABTECH

Fabtech is the leader in high quality suspension systems that have been proven in competition, military use and with daily drivers. Each system has been engineered and built to enhance the suspension functionality of the vehicle for offroad use while providing a superior highway ride. Fabtech offers a wide variety of systems at various price points for any project or budget.

This brochure is a brief overview of what can be found on Fabtech's website.

Go to [fabtechmotorsports.com](http://fabtechmotorsports.com) to get all the tech on what fits your vehicle's needs.

## The Fabtech Advantage

When you buy a Fabtech suspension you get the confidence of knowing that it's covered under the following warranties free of charge.

All qualifying Fabtech suspension systems come with a 5 year 60,000 mile powertrain warranty.

When you're ready to Trade up from a Fabtech Leveling kit to a complete Fabtech Suspension system you'll get a credit for the purchase price of the old Leveling Kit.

Jeep Link Arms that come with Fabtech's 5 Ton Joints® have a free lifetime warranty against wearing out.

Fabtech Jeep Link Arms are so stout they are warrantied against bending, including rock impacts.

For details on these warranties go to [fabtechmotorsports.com](http://fabtechmotorsports.com)

## IFS LIFT KITS

Independent Front Suspensions "IFS" have become the standard on all 1/2 ton and mid size light trucks including the GM 2500/3500. Fabtech offers enhanced lift kits for this popular platform that increases ride height and wheel travel.

High quality components are provided in every Fabtech system to properly lift your vehicle for the best overall highway and offroad ride with oversized tires.

These lift kits are available with front shock spacers that utilize the factory front Coilovers for a stock like ride. If you're looking for more offroad performance you can opt for Dirt Logic 2.5 Coilovers and rear Dirt Logic 2.25 shocks.

## **RADIUS ARM** LIFT KITS

Both Ford and Ram utilize a radius arm suspension configuration on their 3/4 and 1 ton trucks for durability and simplicity.

Fabtech has developed lift kits to meet all levels of your on and off road performance requirements.

Entry level lift kits retain the factory radius arms with drop brackets, and are available with coil spacers or Fabtech's coil springs.

For the enthusiast looking to add height and performance to their vehicle, Fabtech's legendary tubular radius arms replace the stock arms for increased strength and longevity. Fabtech coil springs enhance the ride quality for aggressive driving.

All systems are available with Performance twintube, Stealth monotube or stainless steel Dirt Logics shocks.

## 4 LINK LIFT KITS

The durability of a 4 Link suspension for offroad use has been a proven success for many years. Fabtech offers a 4 Link system for Jeep and Super Duty.

All Fabtech 4 Link systems utilize thick wall steel Link Arms that will never bend or break, guaranteed. Link Arms come with Fabtech's 5 ton joints<sup>®</sup> that are guaranteed never to wear out. All the necessary components are included to lift your vehicle properly for years of trouble free service. There is a multitude of shocks options including Coilover Conversions for aggressive offroad use.

## **COILOVER** CONVERSION

For the finest ride quality and maximum wheel travel Coilover Shocks are a must have when building a trail worthy vehicle. They provide superior damping capabilities for both on and offroad use compared to a separate coil and shock configuration. Fabtech offers bolt on conversion systems that utilize stainless steel Dirt Logic 2.5 Coilovers and the massive Dirt Logic 4.0 Coilovers. Available for Jeep, Super Duty and Ram 2500/3500.

# UPPER CONTROL ARMS

## BALL JOINT

- Thick wall DOM tubing
- Heavy duty extended range ball joints
- Provides additional strength compared to stock
- Easy installation

## TUBULAR UNIBALL

- 1.25" OD .120" wall 4130 Chromoly tubing
- 1" FK Stainless PTFE Uniballs
- Heat Treated 17-4 Stainless Steel Uniball Pins fit into stock BJ taper
- .250 wall DOM bushing barrels with welded gussets

# DIRT LOGIC SHOCKS

Fabtech builds their Dirt Logic® shocks with the finest materials to provide longevity and outstanding performance in the harshest conditions. Dirt Logic shocks are the pinnacle of quality and superior ride for those that demand the best.

## DIRT LOGIC 4.0

The Fabtech Dirt Logic 4.0 provides the ultimate in hardcore offroad damping capacity with superior highway comfort in a big package. This massive high end shock is designed for full size vehicles that require the biggest and best Coilover shock in a bolt on configuration. Nothing else comes close.

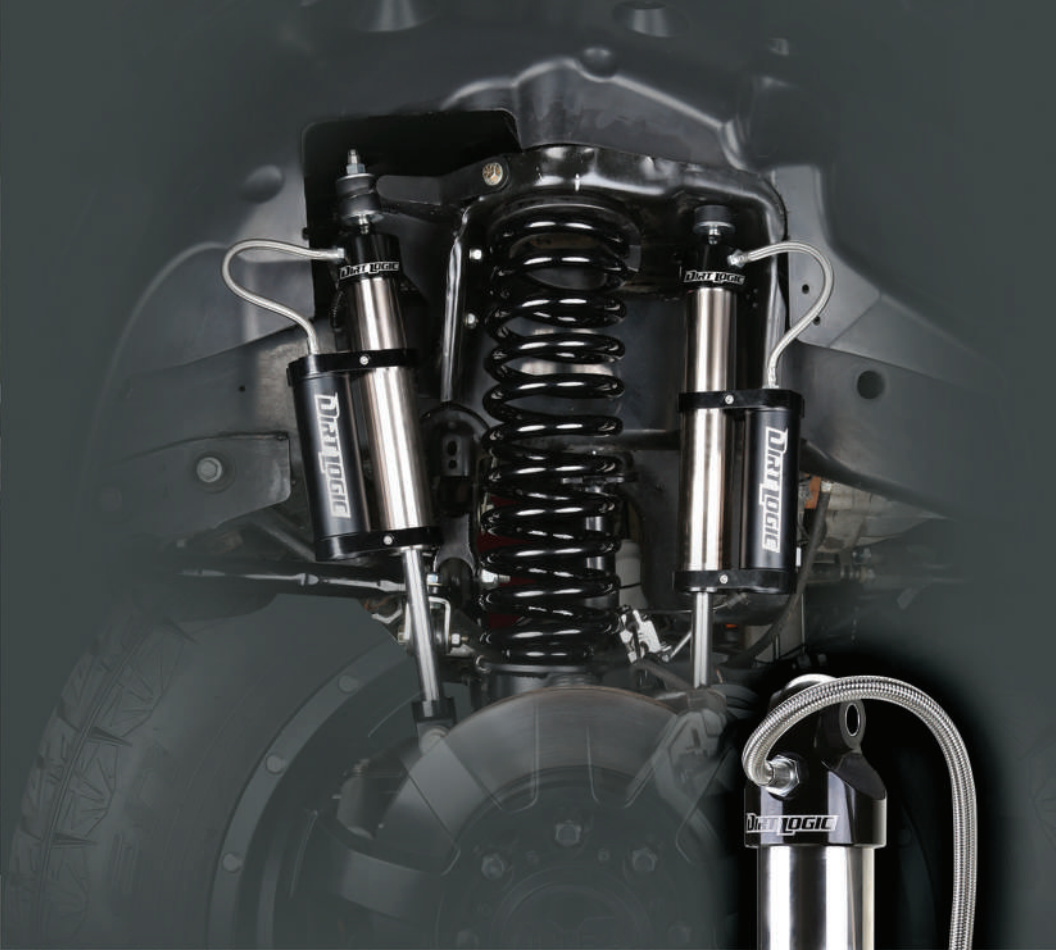

- 4.0" OD Stainless Steel body
- 3-5/8" OD Billet Aluminum Piston
- 1-1/4" NitroSteel® Black Piston Rod
- Adjustable Coilover construction
- 3/4" Spherical Ball Mounting Ends
- 4.0" OD Remote Resi

## DIRT LOGIC 2.5

From Fabtech's desert racing experience the Dirt Logic 2.5 has been developed for exceptional performance in a variety of Coilover applications. The Dirt Logic 2.5 will provide incredible damping capacity for aggressive offroad driving.

- 2.50" OD Stainless Steel Body
- 2-1/4" OD Billet Aluminum Piston
- 7/8" NitroSteel® Black Piston Rod
- Adjustable Coilover Construction
- 5/8" Spherical Ball Mounting Ends
- Available with and without Remote Reservoir

## DIRT LOGIC 2.25

Fabtech designed their Dirt Logic 2.25 to replace factory shocks with a larger, more robust configuration. The 2.25 size is what separates it from other replacement take apart shocks for a superior ride, both on and off road. Shocks are pretuned for each Fabtech suspension, accounting for larger tires, providing the finest all around damping.

- 2.25" OD Stainless Steel Body
- 2" OD Billet Aluminum Piston
- 7/8" NitroSteel® Black Piston Rod
- Polyurethane Mounting Ends
- Available with and without Remote Reservoir

## PERFORMANCE SHOCKS

The twin tube design of the Performance shock provides a good ride quality at an affordable price for on and offroad use.

- Twin Tube Hydraulic Construction
- 9/16" Hardened Chrome Piston Rod
- 1 3/8" OD Diameter Piston
- Closed Cell Foam Insert

## STEALTH SHOCKS

Stealths® are a monotube designed shock that has been tuned to provide a great ride both on and offroad with oversized tires.

- 50mm OD seamless steel body
- 14mm Nitrocarb piston rod resists rock chips and rusting
- 46mm High flow piston for best ride
- Vehicle specific valving

# **STEERING** STABILIZERS

## **PERFORMANCE**

Using the same construction as our Performance Shocks these Performance Steering Stabilizers will reduce front end shimmy from oversized tires and wheels. Easy fit heavy duty bracketry allows for a quick installation. Available in single and dual stabilizer applications.

## **STEALTH**

Our monotube Stealth Steering Stabilizers are designed to reduce front end shimmy from oversized tires and wheels. The durable construction and Nitrocarb piston rod resist rock chips and rusting. The easy fit heavy duty brackets make for a quick installation. Available in single and dual stabilizer applications.

## **DIRT LOGIC**

Utilizing our Dirt Logic 2.25 shock design we have developed a steering stabilizer that will provide the ultimate in steering dampening for use with oversized tires and wheels. These Dirt Logic Steering Stabilizers are designed for vehicle specific applications and will complete your vehicle's Dirt Logic Shock upgrade.

## JEEP ACCESSORIES

### EXTERIOR CARGO RACK

Fabtech's Jeep Gladiator Cargo Bed Rack is a heavy duty, mid height rack designed to hold additional cargo with optional mounts for trail tools and bicycles.

The rugged three piece design clamps to the inside of the factory bed rails or to the bed track for a quick and easy installation. No holes to drill.

### INTERIOR CARGO RACK

This all steel heavy duty Cargo Rack is perfect for increasing the interior carrying capabilities of the Jeep JL/JK. The rack is located behind the rear seat creating a double deck storage area. The deck area of the rack is 22 inches above the floor and provides an additional 4 1/2 square feet of flat storage space.

## DIFFERENTIAL COVERS

These heavy duty differential gear covers offer protection for the under carriage of your Jeep JL or Gladiator. The stout 3/8" thick steel ring and gussets combined with 1/4" thick steel provide superior protection for frontal impacts. The front cover has the added benefit of a contoured skid plate that protects the bottom of the diff housing and the drain plug.

## LIGHT MOUNTS

These light mounts allow auxiliary driving lights to be mounted forward of the Jeep JL or Gladiator windshield / A pillar and above the front fender. There are two styles available, adjustable and fixed. The adjustable mounts allow the light to slide outboard, without the use of tools, making room to lower the windshield.

# JEEP ACCESSORIES

## STEEL TUBE FENDERS

Fabtech's Jeep JL/Gladiator Tube Fenders have been designed to allow the installation of oversized tires for offroad use while providing additional protection to the vehicle. The Tube Fenders directly replace the factory fenders bolting into the same mounting holes for an easy installation.

## INNER FENDERS

These inner Jeep fenders have been designed to replace the factory plastic liners for a rugged custom appearance. The mill finish 6061 aluminum is formed to allow clearance for 37" tires with a 3" lift and 40" tires with a 5" lift. Available for Fabtech steel tube fenders or the factory high clearance fenders.
