FabtechMotorsports.com

Fabtech performance suspension systems are designed for drivers who refuse to settle. The enthusiasts who want something more – more strength, more control, more ride quality – for the weekday commutes to the weekend trails. Enthusiasts turn to Fabtech for uncompromising engineering, manufacturing and easy installation – and a wide range of suspension systems, shocks and components that help dial in the exact stance, performance and capability desired. However you drive, wherever you go – Fabtech gives you the foundation to go further.

THE FABTECH ADVANTAGE

When you buy Fabtech products, you get the confidence of American-built quality – proven in the desert, engineered to dominate, and driven by a 30-year legacy of relentless real-world testing – and backed by some of the industry’s most exclusive warranties and programs – like these:

Fabtech backs each qualifying* suspension system with a standard Limited Lifetime warranty.

All qualifying Fabtech suspension systems come with a 5-year, 60,000-mile powertrain warranty.

When you’re ready to “Trade Up” from a Fabtech Leveling Kit to a complete Fabtech performance suspension system, you’ll earn a credit for the Fabtech Leveling Kit.

*Excludes shocks.

FABTECH JEEP OFFERS

Fabtech Jeep Link Arms that come with the Fabtech 5 Ton Joints™ have a free lifetime warranty.

Fabtech Jeep Link Arms are offered with a warranty protecting against bending, which includes rock impacts.

FOR DETAILS ON THESE WARRANTIES, GO TO

FabtechMotorsports.com

Fabtech FTL Leveling System

On-road comfort, off-road performance – and a completely leveled out ride with the new Fabtech FTL Leveling kits that deliver extra handling capabilities and enable drivers to install a larger tire/wheel package with ease. Each FTL Leveling kit includes all of the necessary parts for an easy, bolt-on installation.

Backed by the Fabtech Trade-Up Program, FTL Leveling Kits give you room to grow – earn a rebate toward a full suspension upgrade when you're ready to take performance even further. Start strong and leveled now, and step up with confidence when the trail demands more!

Dirt Logic Suspension Systems

Engineered for serious off-roaders who demand precision, control, and uncompromising capability, every Dirt Logic kit by Fabtech comes equipped with race-proven Dirt Logic shocks. Designed for enthusiasts who understand the value of tunable performance –and aren't afraid to rebuild and refine their setup – these systems deliver a superior level of damping control, stability, and confidence across extreme terrain. This is the elevated suspension performance that off-road racers and enthusiasts turn to when they expect more and refuse to settle for the ordinary.

Fabtech SPORT Suspension Systems

Lift your truck, SUV, Jeep or Bronco for enhanced performance and aggressive look with the latest Fabtech Sport suspension systems. These suspension kits are engineered for a more precise ride and are outfitted with **Fabtech Performance** twin tube shocks or **STEALTH** monotube shocks, based on driver choice and desired ride. Easy to install with complete, concise instructions and bolt-on parts – go from every day to turning heads in a single weekend install.

FABTECH ENGINEERING

After more than three decades of off-road performance testing, each Fabtech suspension system is backed by a team of experienced, enthusiast-first engineers. Fabtech Engineers application design each Fabtech suspension system – FTL Leveling Kits, SPORT Systems, and DIRT LOGIC Systems – for the precise ride and handling desired by discerning enthusiasts around the world.

Industry-Leading Warranties

Fabtech backs each qualifying* suspension system with a standard Limited Lifetime warranty **PLUS** an exclusive, industry-leading Five Sixty Powertrain Warranty, that offers qualifying kits a 5-year, 60,000-mile warranty covering all major powertrain parts. Learn more at www.FabtechMotorsports.com.

*Excludes shocks.

Suspension System Approaches

Locking in vehicle type, ride and desired driver ride and handling preferences, Fabtech Engineers continuously research and design the suspension system approach best suited for on- and off-road performance and durability.

IFS Suspension Systems

Ideal for today's trucks utilizing independent front suspensions, Fabtech IFS kits elevate stance, enhance ride quality and ensure proper steering and drivetrain geometry. Want daily driver smoothness and weekend adventure-driven performance? Check out Fabtech suspension kits that will increase ride height and wheel travel with no compromises.

Typically found on 1/2-ton to mid-size light trucks

Radius Arm Suspension Systems

Ideal for today's solid axle trucks, Fabtech Radius Arm lift kits deliver all levels of performance and ride quality for on- and off-road applications. Utilize Fabtech designed radius arms or retain factory radius arms with drop brackets and see other engineering-led parts inside every box - these kits were designed for the enthusiast wanting more height, better performance.

Typically found on Solid Axle Designs - including 3/4- to 1-ton trucks

4-Link Suspension Systems

Ideal for serious off-road performance, a true 4-link suspension system from Fabtech maximizes articulation and axle control to allow your truck, SUV, Jeep or Bronco to flex, grip and conquer any type of terrain with ease. Engineered for precise handling and utilizing Fabtech 5-Ton Joints - extreme off-road enthusiasts everywhere choose the shock options desired for the ultimate Fabtech 4-link lift kit experience, anywhere and anytime.

Typically found on Serious Off-Road Applications - Jeep, Bronco, SUV or truck

Suspension System Components

Brutally Tested for Performance & Quality

Fabtech suspension components are engineered for real-world conditions and extreme-use durability - because a system is only as strong as its weakest link. Backed by millions of hours of research, design validation, and punishing field testing, these industry-leading parts form the foundation of every kit they anchor. The result is uncompromising strength, proven reliability, and performance you can trust when it matters most.

Upper Control Arms: Ball Joints

- Heavy-duty extended range ball joints
- Thick-wall DOM tubing delivers added strength, precision & durability
- Provides more strength as compared to stock
- Easy install
- Additional caster built into arms, enhancing alignability with oversized tires

Upper Control Arms: Uniball

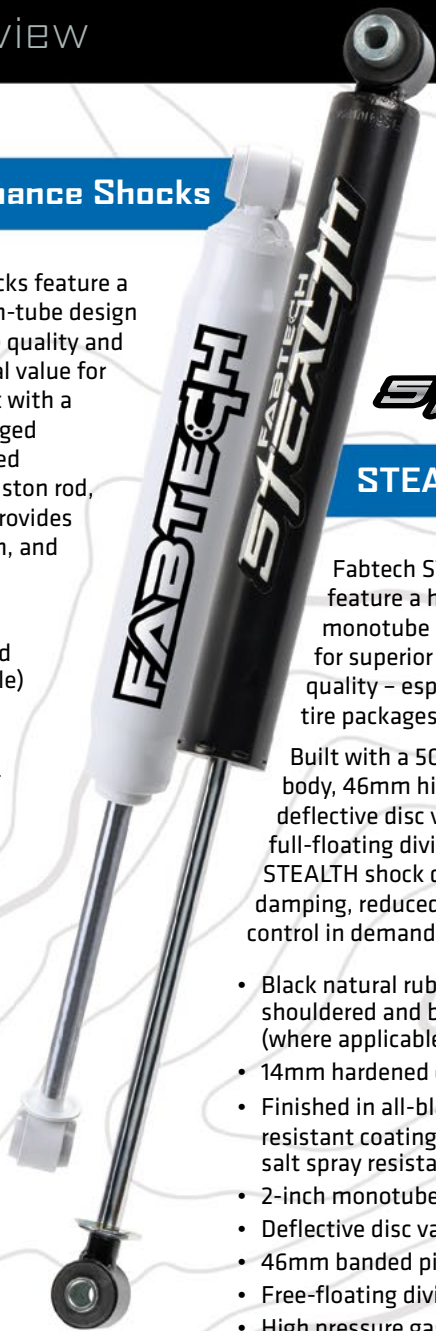

- 1" FK stainless PTFE uniballs
- 1.25" OD .120" wall 4130 Chromoly tubing superior for extreme use
- Heat-treated, 17-4 stainless steel uniball pins fit into stock BJ taper
- .250 wall DOM bushing barrels with welded gussets
- Additional caster built into arms, enhancing alignability with oversized tires

Fabtech Performance Shocks

Fabtech Performance Shocks feature a nitrogen gas-charged, twin-tube design that delivers balanced ride quality and durability at an exceptional value for on- and off-road use. Built with a 2.36-inch steel body, enlarged 36mm piston, and upgraded 15mm hardened chrome piston rod, each Performance shock provides enhanced control, strength, and fade resistance.

- Black natural rubber bushings shouldered and bonded (where applicable)
- 15mm hardened chrome piston rod
- Finished with corrosion-resistant coating & 240-hour salt spray resistant paint
- 2.36-inch steel body
- 36mm banded piston
- Gas pressure
- Dedicated compression valve assembly
- Backed by a 3-year warranty

STEALTH Shocks

Fabtech STEALTH® shocks feature a high-pressure monotube design precisely tuned for superior on- and off-road ride quality – especially with oversized tire packages.

Built with a 50mm seamless steel body, 46mm high-flow piston, deflective disc valving, and a full-floating dividing piston, each STEALTH shock delivers consistent damping, reduced fade, and confident control in demanding terrain.

- Black natural rubber bushings shouldered and bonded (where applicable)
- 14mm hardened chrome piston rod
- Finished in all-black, corrosion-resistant coating & 480-hour salt spray resistant paint
- 2-inch monotube body
- Deflective disc valving
- 46mm banded piston
- Free-floating dividing piston
- High pressure gas
- Dedicated compression valve assembly
- Backed by a 3-year warranty

Dirt Logic Shocks

Fabtech Dirt Logic® Shocks are built for the most seasoned off-roaders who expect uncompromising, unrelenting performance.

Spec'd by the industry's top off-road engineers, each Dirt Logic shock series offers premium designs, components and more – matched to the discerning expectations of the driver building the rig. Find out which Dirt Logic Series shock is for you – each series includes 304 stainless steel bodies, 6061 aluminum reservoirs, and NitroSteel piston rods for maximum corrosion resistance, heat dissipation, and fade-free control in extreme terrain plus other premium parts to deliver performance each and every ride.

Available in system-specific and universal configurations (8 to 16 inches of stroke), Dirt Logic shocks delivers race-proven durability and a refined, confidence-inspiring ride *even when conditions are at their harshest.*

Fabtech builds their Dirt Logic® shocks with the finest materials to provide longevity and outstanding performance in the harshest conditions. Dirt Logic shocks are the pinnacle of quality and superior ride for those that demand the best.

DIRT LOGIC SHOCKS 2.25

DIRT LOGIC SHOCKS 2.5

DIRT LOGIC SHOCKS 4.0

DIRT LOGIC SHOCKS COILOVER CONVERSION

Fabtech designed their Dirt Logic 2.25 to replace factory shocks with a larger, more robust configuration. The 2.25 size is what separates it from other replacement take apart shocks for a superior ride, both on- and off-road. Shocks are pretuned for each Fabtech suspension, accounting for larger tires, providing the finest all-around damping.

- 2.25" OD Stainless Steel Body
- 2" OD Billet Aluminum Piston
- 7/8" NitroSteel® Black Piston Rod
- Polyurethane Mounting Ends
- Available with and without Remote Reservoir

From our desert racing experience, the Dirt Logic 2.5 has been developed for exceptional performance in a variety of Coilover applications. The Dirt Logic 2.5 will provide incredible damping capacity for aggressive offroad driving.

- 2.50" OD Stainless Steel Body
- 2-1/4" OD Billet Aluminum Piston
- 7/8" NitroSteel® Black Piston Rod
- Adjustable Coilover Construction
- 5/8" Spherical Ball Mounting Ends
- Available with and without Remote Reservoir

The Fabtech Dirt Logic 4.0 provides the ultimate in hardcore offroad damping capacity with superior highway comfort in a big package. This massive high end shock is designed for full size vehicles that require the biggest and best Coilover shock in a bolt-on configuration. Nothing else comes close.

- 4.0" OD Stainless Steel body
- 3-5/8" OD Billet Aluminum Piston
- 1-1/4" NitroSteel® Black Piston Rod
- Adjustable Coilover Construction
- 3/4" Spherical Ball Mounting Ends
- 4.0" OD Remote Reservoir

For the finest ride quality and maximum wheel travel, Coilover Shocks are a must have when building a trail worthy vehicle. They provide superior damping capabilities for both on and offroad use compared to a separate coil and shock configuration. Fabtech offers bolt on conversion systems that utilize stainless steel Dirt Logic 2.5 Coilovers and the massive Dirt Logic 4.0 Coilovers. Available for Jeep, Super Duty and Ram 2500/3500.

Fabtech Performance Steering Stabilizers are ideal for towing and off-road applications by helping to enhance a vehicle's ride performance while reducing wheel shimmy, vibration and bump steer - even on applications running oversized tires and wheels! Easy-to-install, heavy-duty brackets makes this a great add-on for a better ride profile. Available in single and dual stabilizer applications and constructed with the same precision as our Performance shock series.

Fabtech STEALTH Monotube Steering Stabilizers were designed for vehicles with oversized tires and wheels for enthusiasts looking for a highly effective dissipation of heat. Designed to reduce front-end shimmy, the STEALTH steering stabilizers feature durable construction, chrome piston rod to help resist rock chips and more. Each is easily installed with a precise application-specific design, heavy-duty brackets and full install instructions. Available in single and dual stabilizer configurations.

Fabtech Dirt Logic Steering Stabilizers utilize Fabtech Dirt Logic 2.25-in. shocks to provide the ultimate in steering damping, ideal for vehicles utilizing oversized tires and wheels. Designed for vehicle-specific applications, these shocks can complete a full vehicle Dirt Logic shock upgrade for the ultimate off-road configuration.

FabtechMotorsports.com

EXTERIOR CARGO RACK

PN: FTS24256

The Fabtech Jeep Gladiator Cargo Bed Rack is a heavy-duty, mid-height rack designed to hold additional cargo with optional mounts for trail tools and bikes.

The rugged, three-piece design clamps to the inside of the factory bed rails or to the bed track for a quick, easy install. No holes to drill.

INTERIOR CARGO RACK

PN: FTS24194

This all-steel, heavy-duty Fabtech Cargo Rack is ideal for adding interior carrying capability to the Jeep JL/JK. Located behind the rear seat, the rack creates a double-deck storage area. The deck area of the rack is 22 inches above the floor and provides an additional 4.5-square feet of flat storage space.

DIFFERENTIAL COVERS

FRONT DIFFERENTIAL COVER, M210 AXLE PN: FTS24299

REAR DIFFERENTIAL COVER, M220 AXLE PN: FTS24300

Heavy-duty Fabtech Differential Gear Covers offer protection for the under carriage of a Jeep JL or Gladiator. The stout, 2/8-in. thick steel ring and gussets combined with 1/4-in. thick steel provides superior protection for frontal impacts. The front cover was designed with a contoured skid plate to add protection to the bottom of the diff housing and drain plug.

LIGHT MOUNTS

LIGHT MOUNT, FIXED PN: FTS24269

LIGHT MOUNT, ADJUSTABLE PN: FTS24270

Fabtech Light Mounts allow auxiliary driving lights to be mounted forward of the Jeep JL or Gladiator windshield / A pillar and above the front fender. Offered in two styles - adjustable and fixed - each offers performance advantages. The adjustable mounts allow the light to slide outboard, without the use of tools, making room to lower the windshield.
